Attention: R. E. Wilkins, Division Assistant Counsel

Gentlemen:

This refers to your application for byproduct material license amendment dated March 4, 1968, regarding cobalt 57.

Cobalt 57 is, to our knowledge, available only as an accelerator-produced radionuclide. As such, it is not within the definition of "byproduct material" (reactor-produced) and is not subject to AEC licensing jurisdiction. Therefore, further action on your request is unnecessary.

Sincerely yours,
Original Signed by
