## Office Memorandum • United States Government

TO : Lyall Johnson, Chief, Licensing Branch,

DATE: FEB 1 3 1957

Division of Civilian Application

FROM : D. F. Musser, Director,
Division of Nuclear Materials Management

SUBJECT: ALLOCATION OF SPECIAL NUCLEAR MATERIAL TO

CURTISS-WRIGHT CORPORATION

SYMBOL: NMM: JV

Reference memo, Lyall Johnson to Douglas E. George, of January 16, 1957.

The allocation for Curtiss-Wright Corporation, as shown in the enclosure, has been calculated to be 8.1 Kg. U-235.

Since the consumption of U-235 has an insignficant effect on the ETP factor, the allocation of 8.1 Kg. contained U-235 may be considered to be ETP also.

It is necessary that this division be supplied with material transfer schedules based on fiscal years. The above calculated total allocation of 8.1 Kg. U-235 may be different when based on fiscal years.
