DOCKET NO. F-39

CURTISS-WRIGHT CORPORATION
RESEARCH DIVISION

BRIGHTON ROAD
CLIFTON, NEW JERSEY
U. S. A.

February 14, 1957

To: Atomic Energy Commission
1901 Constitution Avenue
Washington 25, D. C.

Attention: Division of Civilian Application

Subject: Additional Information Relating to Curtiss-Wright Research Division Application for Class 104-c License dated October 24, 1956

Reference: Undated Atomic Energy Commission letter from Lyall Johnson to George R. Hill

1. In reply to reference letter Curtiss-Wright Corporation, Research Division, respectfully submits herewith an estimated cost of $2,470,549. relative to the development and construction of the Curtiss-Wright Research Reactor Facility, including associated Hot Laboratories. The cost of the site acquisition for this Reactor Facility is not included in this cost estimate because these costs are not available separately from the total site preparation and acquisition at Quehanna, Pennsylvania. The total Curtiss-Wright Research and Development Center at Quehanna, covering an area of over 80 square miles, entails the development of many activities in which Curtiss-Wright Corporation has invested over $24,000,000. since the start of that project in July 1955.

2. The estimated average annual operating cost, based upon 100% occupancy and operation, is $960,000.

3. The Research Division will be pleased to submit any further information as requested.

Respectfully,

CURTISS-WRIGHT CORPORATION
RESEARCH DIVISION

George R. Hill
Vice President for Finance
