Docket No. 50-39

Mr. James T. Ramey  
Executive Director  
Joint Committee on Atomic Energy  
Congress of the United States

Dear Mr. Ramey:

This is to inform the Joint Committee that the Commission has submitted for publication in the Federal Register the attached notice of proposed issuance of a facility license to Curtiss-Wright Corporation. The proposed license would authorize Curtiss-Wright to operate its 1000-kilowatt pool-type research reactor at a site near Quahanna, Pennsylvania.

The proposed license incorporates a condition that until equipment providing forced circulation has been installed the authorized power level is limited to a maximum 100 kilowatts.

Also attached is a memorandum by the Director, Division of Licensing and Regulation setting forth the principal factors considered in reviewing the application.

You will be advised of further action taken in this matter.

CONG. COMM. - 2  
CHAIRMAN - 1

Sincerely yours,

H. L. Price  
Director  
Division of Licensing and Regulation
