Dr. Jan Lieben
Director, Division of Industrial Hygiene
Bureau of Environmental Health
Pennsylvania Department of Health
State Capitol, South Office Building
Harrisburg, Pennsylvania

Dear Dr. Lieben:

This is to inform you that the Atomic Energy Commission has submitted for publication in the Federal Register the attached notice of proposed issuance of a facility license to Curtiss-Wright Corporation authorizing operation of a 1000 kilowatt (thermal) light water moderated pool-type research reactor at the Corporation's Research and Development Center near Quehanna, Pennsylvania.

Also attached is a copy of a memorandum setting forth the principal factors considered in reviewing the application.

You will note that the proposed license incorporates a condition that until equipment providing forced circulation has been installed the power level is limited to a maximum of 100 kilowatts.
