

March 30, 2004

LICENSEE: Dominion Nuclear Connecticut, Inc. (DNC)  
FACILITY: Millstone Power Station (Millstone)  
SUBJECT: TELEPHONE SUMMARY BETWEEN THE U.S. NUCLEAR REGULATORY COMMISSION (NRC) STAFF AND DOMINION NUCLEAR CONNECTICUT, INC. REPRESENTATIVES TO DISCUSS THE MILLSTONE POWER STATION, UNITS 2 AND 3 LICENSE RENEWAL APPLICATIONS

On March 3, 2004, the NRC staff (the staff) and representatives from DNC held a telephone conference (telecon) to discuss the drawings submitted with the Millstone Unit 2 and Unit 3 License Renewal Applications (LRA) dated January 20, 2004. The staff questioned the licensee whether the submitted license renewal drawings depict the boundaries for components in-scope of license renewal. The submitted licensee renewal drawings are marked as "components subject to aging management review."

The applicant informed the staff that the submitted licensee renewal drawings depict components subject to AMR. The applicant further stated that the boundaries on the drawings are the same for the boundaries for components in-scope of license renewal. The staff will formally submit this question as a request for additional information to the applicant.

DNC has had an opportunity to review and comment on this summary.
