Mr. R. L. Kirk

Dear Mr. Kirk:

This will acknowledge receipt of your correspondence of October 10th and 11th.

We have noted that the Atomic Energy Commission has issued Amendment No. 4 to Facility License No. R-36 issued to the Curtiss-Wright Corporation, authorizing the Corporation to shut down the research reactor facility on a stand-by basis during this period.

We have also observed the information from the Advisory Committee on Reactor Safeguards to the Commission concerning the change to a multi-layer pressure vessel in the reactor to be constructed and operated by Saxton Nuclear Experimental Corporation near Altoona.

Your thoughtfulness in keeping us advised is greatly appreciated.

Sincerely yours,

Otis B. Morse  
Secretary to the  
Governor
