SUBJECT:    REQUALIFICATION PROGRAM INSPECTION - LIMERICK GENERATING  
              STATION AND PEACH BOTTOM ATOMIC POWER STATION

Dear Mr. Crane:

In a telephone conversation on March 26, 2004, Mr. Julian Williams, Examiner/Inspector, and Mr. Craig Fritz, Lead LSRO Instructor, made arrangements for the NRC to inspect the licensed operator (LSRO) requalification program for the Peach Bottom Atomic Power Station and Limerick Generating Station facilities. The inspection is planned for the week of May 17, 2004, which coincides with your regularly scheduled requalification examination cycle. The staff at your facility should prepare and conduct the requalification examinations in accordance with your NRC-approved requalification program.

In accordance with 10 CFR 55.59(c), the NRC may request facility licensees to submit their comprehensive requalification written examinations or annual operating tests as necessary to support the NRC's inspection program needs. In order for the NRC to adequately prepare for this inspection, please furnish: 1) an index or summary of condition reports written in the past two years in which licensed operator errors associated with refueling or fuel handling were determined to be the root or contributing cause; and 2) the examination schedule, sample plan, written examination and operating test scheduled for the week of the inspection to the NRC by May 10, 2004. Mr. Fritz has been advised of this request and provided with the name and address of the NRC lead inspector assigned to this inspection.

This letter contains information collections that are subject to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.). These information collections were approved by the Office of Management and Budget, approval number 3150-0018, which expires on June 30, 2006.

The public reporting burden for this collection of information is estimated to average 4 hours per response, including the time for reviewing instructions, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments on any aspect of this collection of information, including suggestions for reducing the burden, to the Information and Records Management Branch (T-6 F33), U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, or by Internet electronic mail at [SLF@NRC.GOV](mailto:SLF@NRC.GOV); and to the Desk Officer, Office of Information and Regulatory Affairs, NEOB-10202, (3150-0101), Office of Management and Budget, Washington, DC 20503.

Mr. Christopher M. Crane

The NRC may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

Thank you for your cooperation in this matter. If you have any questions regarding this inspection, please contact Mr. Williams at (610) 337- 6967.

Sincerely,

*/RA/*
