

April 2, 2004

MEETING SUMMARY

LICENSEE: FIRST ENERGY NUCLEAR OPERATING COMPANY (FENOC)
FACILITY: BEAVER VALLEY, UNITS 1 & 2
SUBJECT: SUMMARY OF MARCH 25, 2004, ANNUAL ASSESSMENT MEETING WITH FENOC

On March 25, 2004, at 1:00 p.m., an Annual Assessment Meeting was conducted at the Beaver Valley Emergency Response Facility, Shippingport, PA, between the Nuclear Regulatory Commission (NRC) and First Energy Nuclear Operating Company (FENOC). The NRC requested the meeting with FENOC management to discuss NRC's assessment of the safety performance of the Beaver Valley Nuclear Power Station for calendar year 2003.

The NRC presented and discussed its assessment of the safety performance of Beaver Valley Units 1 & 2 for the period between January 1 through December 31, 2003, as documented in our letter dated March 2, 2004. The NRC presentation included background on both plants, performance assessment results, an overview of calendar year 2004 planned inspections and oversight, and a discussion of general NRC issues. As part of this regulatory performance meeting, FENOC presented an overview of their performance at both facilities.

Local officials and the press observed this public meeting and were offered the opportunity to communicate with the NRC regarding FENOC's performance and the role of the agency in ensuring safe plant operations at the end of the meeting.

Sincerely,

/RA by Richard S. Barkley, Acting For/

Peter Eselgroth, Chief
Projects Branch 7
Division of Reactor Projects
