ISSUANCE OF LICENSE NO. R-72 TO THE PENNSYLVANIA STATE UNIVERSITY,  
PERMIT NO. 50-174; TERMINATION OF LICENSE NO. R-36, CURTISS-WRIGHT  
CORPORATION, SOCKET NO. 50-39

SYMBOL: DL&R:HDM

I have issued License No. R-72 to The Pennsylvania State University authorizing the University to possess, but not to operate, the nuclear research reactor facility at the Curtiss-Wright Research and Development Center at Quehanna, Pennsylvania. This facility has heretofore been owned by the Curtiss-Wright Corporation, and previously operated under License No. R-36. On the effective date of this license, Curtiss-Wright will transfer ownership of this facility to The Pennsylvania State University and Curtiss-Wright License No. R-36 will be terminated.

I have found that prior public notice of the proposed issuance of the license is not necessary in the public interest. If a request for a formal hearing is received, you will be notified.

Attached for your information are a copy of License No. R-72, a Notice of Issuance of Facility License, which has been submitted to the Office of the Federal Register for filing and publication, and a related hazards analysis prepared by the Research and Power Reactor Safety Branch of the Division of Licensing and Regulation. Also attached is a Notice of Termination of License No. R-36, issued to Curtiss-Wright Corporation.

The following additional actions are being taken:

1. Copies of the license, hazards analysis and notices are being sent to the applicants, the ACRS, the JCAE and appropriate state officials.
2. A public announcement is being prepared by the Office of Public Information.

Enclosures:

1. License No. R-72
2. Notice of Issuance of Facility License No. R-72
3. Hazards Analysis
4. Notice of Termination of Facility License No. R-36
