Subject: Re: Fwd: Sensitivity Review of two NUREGs

release

Tom, We already looked at that report and determined it wasn't acceptable for release. The name sounded familiar so I double checked my records. This NUREG "belongs" to NMSS. I asked them to review it November 15. They did and on Nov 19, they replied that it wasn't acceptable.

>>> Thomas Smith 12/20/01 01:57PM >>>

I am enclosing the citation for the report. I'm not sure that it was ever formally released as a NUREG but it was released through the FOIA.
