Mindy L. and Pat R:

Who do we need to consult with to get a decision on whether we should place restrictions on giving out lists of NRC licensees?(Name address phone number)

Then please do the appropriate consultation so that you can give me your recommendations

I don't have a recommendation. This is an agency issue. We need to consult with whoever is making the decisions to get more perspective. John H

So how would you recommend we now proceed given the issues around security?

Don:

Generally, when Maureen provides a list, it's:  
Name, Address, Contact, Phone, Program code.

Sometimes there is possession limit.

Most recent requests have been medical licensees.

Also, every month we have been getting and fulfilling an FOIA request from a company in Connecticut for a complete licensee list. They pay each time.
