Subject: Sensitive Info Screening Update

Marty Virgilio, Charlie Miller, Bob Weisman, Scott Flanders, Minday Landau, and I met with Carl Paperiello last week and presented information about the need to screen the PFS FEIS before it is released to the public. I discussed the suggested criteria for screening that was agreed upon in a previous meeting with OGC and Marty. Carl stated that we should use the criteria and do the screening of the FEIS, even though it might be challenged in court after it is released.

Accordingly, we will set up a small team and will do the screening next week. We will be using Criteria Items 2, 5 (minus the Off-Normal Events), and 6 for the PFS document.

Back to the EIS...
