
RIC 2004

License Renewal, Session T12

Improved LRA Review Process

Steve West

Section Chief

U.S. Nuclear Regulatory Commission

March 11, 2004

Improved LRA Review Process

- Affects AMP and AMR reviews
 - Addresses 50 to 95% of AMPs and AMRs
- Reviews based on
 - GALL report and SRP-LR
 - Prior NRC staff approvals
- Compressed schedule
 - Front loaded – approximately first 6 months
- Efficient – Site audits and reviews
 - Standardized approach
 - Dedicated project teams

Near Term Process Improvements

- Update license renewal guidance
 - GALL Report
 - Incorporate prior NRC staff approvals
 - Assessing streamlining categories of AMR/AMPs
 - Standard Review Plan – License Renewal
 - Adopt improved LRA review process
- Assess scoping and screening review process
- Assess inspection process
