MEETING SUMMARY

LICENSEE: CONSTELLATION GENERATION GROUP
FACILITY: CALVERT CLIFFS, UNITS 1 & 2
SUBJECT: SUMMARY OF MARCH 30, 2004, ANNUAL ASSESSMENT MEETING WITH
CONSTELLATION GENERATION GROUP

On March 30, 2004, at 1:00 p.m., an Annual Assessment Meeting was conducted at the Holiday Inn, Prince Frederick, MD, between the Nuclear Regulatory Commission (NRC) and Constellation Generation Group (Constellation). The NRC requested the meeting with Constellation management to discuss NRC's assessment of the safety performance of the Calvert Cliffs Nuclear Power Plant for calendar year 2003.

The NRC presented and discussed its assessment of the safety performance of Calvert Cliffs Units 1 and 2 for the period between January 1 through December 31, 2003. The NRC presentation included background on both plants, performance assessment results, an overview of calendar year 2004 planned inspections and oversight, and a discussion of general NRC issues. As part of this regulatory performance meeting, Constellation presented an overview of their performance.

The public observed this meeting and was offered the opportunity to communicate with the NRC regarding Constellation's performance at Calvert Cliffs and the role of the agency in ensuring safe plant operations. At the end of the meeting between the NRC and Constellation, the NRC answered questions from the public for approximately one hour.

Sincerely,

/RA/

James M. Trapp, Chief
Projects Branch 1
Division of Reactor Projects
