Hello, Mr. Lodhi

Yes, the 133Ba sources are distributed under a general license for all the Tri-Carb LSAs including the 1600TR and 1900TR instrumentrs.

Are 1600 and 1900 old Tri-carb models? Can you help with this?

Hei,

Ossatko auttaa?

Terv, Helena

Subject: Product Information

Hi:

I am with the Nuclear Regulatory Commission. I need information about the B-133 sealed sources that are installed in Liquid Scintillation Counters Models 1600CR and 1900CA. Are these sources distributed by you under the general license in 10 CFR 31.5?

Specifically, were the Ba-133 sealed sources with serial numbers 404131 and 102312 distributed under the general license?

A quick response will be greatly appreciated.
