Dear Ms. Jablonski:

In order to help both Agreement States and the U.S. Nuclear Regulatory Commission (NRC) remain knowledgeable of each others' programs and to conduct planning for the next Integrated Materials Performance Evaluation Program (IMPEP) review, the IMPEP process includes holding one-day periodic meetings with Agreement States between IMPEP reviews.

In accordance with Office of State and Tribal Programs (STP) Procedure SA-116, we request a meeting, no longer than one day, to discuss your Agreement State program and share programmatic information. This letter confirms that, after previous coordination, the meeting is scheduled for Monday, June 7, 2004, and will be held in your office. Ms. Patricia Larkins, STP, assigned as Project Officer for Texas, unfortunately will not be able to attend the meeting. However, Ms. Larkins will be available to participate by telephone.

Based on our previous discussions the likely topics for conversation at the meeting include :

1. Status of State's actions to address all open previous IMPEP review findings and/or open recommendations.
2. Strengths and/or weaknesses of the State program as identified by the State or NRC, including identification of actions that could diminish weaknesses.
3. Feedback on NRC's program as identified by the State and including identification of any action that should be considered by NRC.
4. Status of State Program including:

 - i) Number of staff in the program and status of their training and qualification;
 - ii) Program vacancies;
 - iii) Staff turnover;
 - iv) Adequacy of FTEs for the materials program.

 - d. Program reorganizations:
 - i) Discuss any changes in program organization including program' staff relocations and new appointments.
 - e. Changes in Program budget/funding.
5. Event Reporting, including follow-up and closure information in NMED.
6. Response to Incidents and Allegations:
 - a. Status of allegations and concerns referred by the NRC for action;
 - b. Significant events and generic implications.
7. Information exchange and discussion:
 - a. Current State initiatives;
 - b. Emerging technologies;
 - c. State's mechanisms to evaluate performance, as applicable:

8. Schedule for the next IMPEP review.

If there are any additional specific topics you would like to cover, or if you would like to focus on a specific area, please let me know.

If you have any questions, please call me at 817-860-8143, or e-mail to VHC@NRC.GOV.

/RA/
