 Do you have a few minutes to discuss things on Tuesday afternoon?

 I don't remember anything from someone named Allard. It could be that his allegation was handled by NMSS Safeguards, Division of Security, or simply disposed of by the FOIA branch.
 As for meeting to discussed sensitivity of information, I'll be around Monday through Wednesday next week, but I plan to take off the Friday after Thanksgiving (workload permitting). Call or e-mail me and set up a time.

 I am assigned to a group in NRR that has been asked to assess information for release on the web site (and perhaps ADAMS). (1) I think it would be helpful for me to talk with you about any insights you might have since the guidance we are getting is pretty subjective and we are starting to see some differences in how different offices/branches are applying it. Let me know if you have a few minutes next week so that I might get calibrated a little better.
 - and (2) I happened to see on TV a couple nights ago a consultant (Allard - I think) who is a retired army officer and who said he had send a concern to us (NRC) in the 1998 time frame about the level of information we made publicly available. Do you recall responding to any such letter? I thought it might be useful to see in light of the current assignment. Thanks....
