release

Mindy,

We need to designate a centralized point of contact at NRC for other websites that have material that should be considered for removal. Carl P. was asking whether anyone was doing any reviews of other website material.

I've asked Joan Hoffman to send to you e-mails identifying other websites (like the one attached) until NRC figures out how best to handle these kinds of e-mails, if we do anything at all. If you have a better idea, let me know. I think we should alert the ET tomorrow to these kind of e-mails since Carl brought it up.
