Subject: Re: Authorization to Print Report as NUREGs

release

Michael: I am a bit confused as concerning the guidance on the NUREGS. I was my understanding that they were on hold pending further guidance from OEDO/CIO.

Fran/Mindy: Please fill me in. If Fran/Mindy have no issues, my all means, let's send the message to Publications. Please follow up w/ Gilbert Millman who has my proxy my on subject, while I am out next week.

Thanks

Mabel

Mabel,

In order to get two international reports sent to RES under the CAMP program (Code Assessment and Maintenance Program) published, I need you to send the message below to Paula Garrity in Publications. Pls send the message ASAP. Thank you. Mike

MESSAGE:

The reports noted below contain no information that may reveal significant details about the security, safeguards, or potential vulnerabilities at licensed facilities. Therefore they are appropriate for printing and public availability as noted on Form 426 attached with the reports.

1. Heikki Sjoval, *OLKILUOTO 2 - RELAP5/MOD3.2.1.2 Analysis of the Reactor Scram on June 13, 1997*, Teollisuuden Voima Oy, Finland, Nov. 2001.
2. G.R. Kimber, W. V. Wright, G.P. Dobson, T.J. Haste, R.P. Hiles, *RELAP5 Hot Rod Model*, AEA Technology plc, Dorchester, UK, Nov. 2001.
