Fran,

We're not there yet. We still working with the EDO's office what we would provide, and the impact of meeting the SRM. Tim McGinty is our contact. He will keep you posted as things develop.

Joe -

Can you tell what the thinking is on the Daily Plant Status. I saw the EDO response to the draft SRM on the criteria. Sounded like we need to be ready to start posting the Plant Status soon. Am I correct?

Fran
