Subject: Updated Chronology of Web Lite and ADAMS Pages
Place: NRCWEB@nrc.gov

Here's an updated chronology of content updates to Web Lite, the current public-access web site.

- The Web site was taken down on 10/11.
- A small subset was restored on 10/17, including the following information on how users could access ADAMS: "The Agencywide Documents Access and Management System (ADAMS) PARS database is still available. Please contact the PDR staff for search assistance or access information. Send an email to pdr@nrc.gov or call 1-800-397-4209 or 301-415-4737 (8:30 am -4:15pm, Eastern Time, Mon.-Fri.). However, this site did not include access to the Citrix plug-in because of access to potentially sensitive information."
- Additional information (including the ADAMS pages) was added on 10/25/01.
- License Renewal (under Reactors) posted on 10/29/01.
- ADAMS Plug-ins links restored on 10/31/01

Walt

=====

Lynn - FYI, the url for the ADAMS page on the current version of nrc.gov is
<http://www.nrc.gov/reading-rm/adams.html>
