Due to increased security concerns The NRC-State & Tribal Programs web site had temporarily been placed under password access only. The web site has been re-opened except for the 'Radioactive Sealed Sources and Devices' page. That page will remain password protected for now.

If you need information from that page you need to contact John Hickey ([JWH1@NRC.GOV](mailto:JWH1@NRC.GOV))

Hi,

I'm trying to view device registries on the usnrc web site, and found that you now need a password to access it. Can you please advise.
