**Subject:** Re: Regulatory Guides and NUREGS - Joan Hoffman

Good Evening Marjorie,

None of the referenced documents are available at this time on our web site. We hope to have many of them restored by the end of February. Please contact our [pdr@nrc.gov](mailto:pdr@nrc.gov) and they can provide you with copies. Thank you.

Joan

Joan Hoffman -

You offered some help to me last month in locating documents on the NRC web site. I am not sure if the following documents are available directly on the web. If they are, can you help in locating them? If they are not, how can I get copies quickly? I am involved with a potential project for NRC and need to consult these documents.

The most important one is:

Regulatory Guide 4.2 (Revision 2, 7/76)  
"Preparation of Environmental Reports for Nuclear Power Plants"

The others are:

NUREG-1555 (Final)  
"Environmental Standard Review Plan"

NUREG 0800 (Revision 2, 7/81)  
Standard Review Plan for SARs"

If you can assist me in acquiring these documents, I would greatly appreciate it.

Thanks.

Dr. Marjorie L. Zeff
