comments: When does NRC plan to place the rest of the 2001 ACRS transcripts on the web? There are specific meeting which have relevance to both the problems at Davis Besse and the industry's plans for new nuclear reactors which are not available to the general public. If by some stroke of luck one actually finds them on ADAMS, the files are too large to share. Please stop using tiff files!  
(A request the public has been making for years now.)
