Subject: Re: Finding a NUREG

The 1556 series has been approved for reposting to the newly designed site. However, the collection is in the process of being revised for the new look and navigation. They should be posted shortly and when available will be found at:

<http://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/>

Thank you for your patience and please let me know if I can be of further assistance.

Joan Hoffman
NRC Web Site Manager

I know that many things were removed because of 9-11 and documents that may contain restricted info. Staff in our office often used the NUREG 1556 Series. We did not think that the info in the NUREG 1556 series would be restricted. Your web site has also been redesigned. We can not seem to find them currently. Could you tell us how to find them. Thank YOU!

We are also have some problems printing 10 CFR pages. The right side of the text is being cut off. I spoke to our information technology staff about this. I thought it was a problem with my computer. But they told me that the web pages were designed to fit. The only way I can get the pages to print out is to change my left and right margins to .25 inch or print the pages landscape. This had not been a problem with your old web pages.

Thank you! Happy New Year!
