PRR
The notebooks are also in ADAMS. The licensees were send these notebooks on their dockets so I believe they are in the respective local libraries and send to other people who are on distribution for docketed documents. Projects will have a better perspective on who has been receiving the hard copies. I think it varies from licensee to licensee. If you have any other questions please call at 415-1114.

Pete, do you know any other locations (other than the web) where these notebooks may reside? Are they in local libraries (former LPDRs), or other locations in hard copy?

>>> Peter Wilson 10/05/01 06:19AM >>>

Here is the web address for the SDP Notebooks. Once you get to this address you need to chick on the "Risk Informed Notebooks" on the left. If you have any questions, please call. 415-1114
