**Public Web Site Now Available to the Staff**

The NRC public web site is now available to the staff only. The site will continue to be unavailable to the public while we perform a review of all material at the site in support of our mission to protect public health and safety. To access the external web site, go to: [www.nrc.gov:201](http://www.nrc.gov:201). It can also be reached from the internal web site.

Because of the way the web server had to be configured for internal viewing, you may receive an error message (e.g., Not Found), when you click on certain links. To access the information, you will need to replace [www.nrc.gov](http://www.nrc.gov) with [www.nrc.gov:201](http://www.nrc.gov:201) (however, don't change anything else in the web address).

In addition, the Agencywide Documents Access and Management System (ADAMS) PARS database is still available. Please contact the PDR staff for search assistance or access information. Send an e-mail to [pdr@nrc.gov](mailto:pdr@nrc.gov) or call 1-800-397-4209 or 301-415-4737 (8:30 a.m. - 4:15 p.m., Eastern Time, Monday-Friday).
