Subject: Website access

I was wondering if the NRC is considering making the "News and Information" section of the Website available. We, at Exelon, put out a "Daily Industry Events Report" everyday from the Daily Report and the Morning Report section within "News and Information". We review other stations "Power Reactor Events" and the Morning Report is usually our first notice of any potential Part 21 issues. It would be beneficial if that one section was made available.

Thank You, John A. Speed, GSEP pager 2887
