**Partial NRC Public Web Site Now Available to the Public**

A limited version of the NRC public Web site ([www.nrc.gov](http://www.nrc.gov)) is now available for staff and public access. The site contains the following categories of information:

- Public Meetings
- Press Releases (reduced in number)
- Employment Opportunities
- Report a Safety Concern
- Mission Statement

The Privacy Act and Disclaimer notices will also be included.

Other content previously available on the public site is continuing to be reviewed in support of our mission to protect public health and safety. As these reviews progress, content will be added to the site incrementally until the reviews are completed.

In the meantime, the former public site continues to be available from the internal home page at [www.nrc.gov:201](http://www.nrc.gov:201) and document collections continue to be updated at that site for staff access.
