Subject: Re-posting of items to web page

Per the ET's request this morning, please re-post the following material to the external web page asap (high priority):

- Public meetings
- Press Releases (for now, at least the 2 that reference Sept. 11 event and OPA will let you know which other ones should be posted)
- Recruitment page

Thanks. I'll let you know when the senior management team to review web removal items is formed so we can meet (hopefully some time today).
