 Subject: Re: 10 CFR Posting

NMSS { Mindy, I think you misunderstood. John Z is the one who expressed concern about the Part 70 series. I think that we need to **keep the regulations on the web**. It is the standard against which we judge applications, inspections, etc. It is a GOOD thing to have the regulations on the web. Susan

EDO { >>> Mindy Landau 10/18/2001 5:02:35 PM >>>  
 Susan, just wanted to let you know that based on our discussions with various managers, office reps, and also based on the Chairman's reaction, it looks like posting 10 CFR in its entirety will happen today or tomorrow. I know you expressed some concern about the Part 70 series regs, but most of the senior managers in the agency seem to be ok with us posting our regulations. If you still want to reconsider this, please let Jeff Main know ASAP and we can re-evaluate.... Thanks.
