Subject: Reposting Document Collections

Joan, in Stu Reiter's 2/22/02 memo, he requests that offices review the documents listed in the attached table and notify you of those that do not contain any sensitivity and may be re-posted. The EDO's office believes that the Monthly Report to Congress, the only document listed that is "owned" by OEDO, does not contain any sensitive material and may be re-posted to the web. For now, the scope can be limited to "this day forward." Should we see the need to post some archival reports, we will let you know. Thanks,

Mindy
