Subject: Response to CIO Request for Information on Reposting Documents

Joan, This e-mail (see attachment) provides the information requested on reposting document collections and single documents to the NRC public web site [Ref: Memorandum from Stuart Reiter to George Hornberger, et al, on Reposting Document Collections to NRC's Public Web Site, dated February 22, 2002]. The attachment has two parts. Part 1, in the format provided by OCIO, provides RES' conditions for posting entire documents collections. This form, which requests approval by Office management, is approved by Roy Zimmerman (DD:RES) [I provided the signed hardcopy to you on 3/18/02]

Part 2 of the attachment provides a list of regulatory guides that have been reviewed and approved on a document-by-document basis. These documents have been reviewed based on Commission guidance (dated January 25, 2002) to the staff for developing final criteria for release of information to the public. Based on this sensitivity review, it has been determined that the listed active and draft regulatory guides do not contain information that could provide a clear and significant benefit to a terrorist in a potential attack. The result of each review has been approved by the cognizant RES Division Director. As RES Web Liaison, I request that these regulatory guides be posted to the NRC public web site. [An advance copy of this list has been provided to Lance Lessler]

Please contact me if you need additional information.
