I am getting the paperwork ready today for signature, and will close out this activity by COB on Monday.

Carl-

Thanks. I've noted the schedule announced to the public on the Site Rebuilding Schedule page per our earlier agreements (See **boldface** type below). We will post these according that that schedule. Also, we will need the official sign-off from your information sensitivity review group for our records

As you know, we have committed to ensuring that all documents at the Web are also in ADAMS and we normally ask for MLs. Given the large number of these documents, can you send me anything else that would give assurance that all these (since Nov, 99) are in ADAMS (e.g., you could send me a description of the management control process that ensures they get to ADAMS)? Were any removed post 9/11? If so they will need to be restored.

Fran
