Place: NRCWEB@nrc.gov

Hi Joan, NUREG 1437, supplement 7 has approved by the NRR Info Review Team for posting on the web. Thanks, Conchita

Conchita,

Publishing is sending the draft supplemental environmental impact statement for license renewal for the North Anna Power Station (NUREG-1437, Supplement 7) to the printers. We would also like to make arrangements to put it onto the web page. We expect to take the package to the EPA and mail it out to the service list on Thursday, May 9, and that would be the ideal date to make it available on the web. (A day or so earlier would also be fine since the documents are dated April 24.)

Could you please authorize Joan Hoffman to proceed? Publishing (Linda Stevenson) has the CD with the files on it, which she will supply to Joan. See below for the results of the review for sensitive information.

We have reviewed the draft environmental impact statement for North Anna (draft NUREG-1437, supplement 7) and determined that it does not contain sensitive information.
