David

Barry Mendelsohn advised me to pass this information to you.

In the process of searching the website for security information that could be of interest to the criminal element I came across a Confirmatory Order for Waterford 3 in LA.

It was located at www.nrc.gov/OE/rpr/ea00093.htm

It was addressed to VP Charles M. Dugger. On page II paragraphs 6 and 6 the deficiencies are noted in general terms. Although no details are given it paints a picture of a plant that has inadequate security.

If you have any questions please call me at 415-8147.
