Subject: Search on ADAMS to support web review

Kathy, in our review of the web site for vulnerabilities since the Sept. 11 incident, some questions have come up regarding Abnormal Operating Procedures. Trish Milligan indicated that if these documents were located in the ADAMS public library, they should probably be removed. In Trish's absence today, the person doing the ADAMS search, Betsy Shelburne, will be contacting you regarding some questions she has on these documents. Please give her any support/information you can so we can expedite the web review. Thanks.
