**Subject:** Fwd: Documents to be removed from the web

See attached. Wayne, please be the owner of this action. Walt is removing the documents from the Web. Remove them from ADAMS if they are there. Follow through with Tom on the best way to deny access to them in the PDR. Get a response from whomever is acting for Moe to the request regarding limiting access to sealed source database.

**Subject:** Documents to be removed from the web

The following NUREG reports are to be removed from the web site per instruction from S. Frant and P. Rathbun, NMSS:

NUREG-1738, "Technical Study of Spent Fuel Pool Accident Risk at Decommissioning Nuclear Power Plants."  
NUREG/CR-6642, "Risk Analysis and Evaluation of Regulatory Options for Nuclear Byproduct Material-System Byproduct Materials Risk Study"  
NUREG-1717, "Systematic Radiological Assessment of Exemptions for Source and Byproduct Materials."

They have also requested that the sealed source and device registry be removed from the web site and that NRC provide password protection for web access to this database. If there are technical considerations/costs to be factored into this action, please let me know.

Please process their removal... thanks,  
Mindy
