Yes, I spoke to Jim Myers and you are correct. He is already working with ORNL, the contractor, to work up a proposal.

>>> Lynn Scattolini 10/09/01 01:56PM >>>

Mindy,

My understanding is that the sealed source and device registry is "owned" by the Office of State Programs and that State Programs has arranged for it to be "housed" at an ORNL Web server. OCIO is not the developer of this system. Please forward your request for the item in the last paragraph to State Programs (perhaps Jim Myers?) for action. Thanks.

P.S. We are working on removing the NUREG reports from Web and ADAMS.

>>> Mindy Landau 10/09/01 09:48AM >>>

The following NUREG reports are to be removed from the web site per instruction from S. Frant and P. Rathbun, NMSS:

NUREG-1738, "Technical Study of Spent Fuel Pool Accident Risk at Decommissioning Nuclear Power Plants."

NUREG/CR-6642, "Risk Analysis and Evaluation of Regulatory Options for Nuclear Byproduct Material-System Byproduct Materials Risk Study"

NUREG-1717, "Systematic Radiological Assessment of Exemptions for Source and Byproduct Materials."

They have also requested that the sealed source and device registry be removed from the web site and that NRC provide password protection for web access to this database. If there are technical considerations/costs to be factored into this action, please let me know.

Please process their removal... thanks,  
Mindy
