Sandy Gabriel, Senior Health Physicist
Nuclear Materials Safety Branch 1
United States Nuclear Regulatory Commission - Division of Nuclear Materials Safety
NRC Region I
475 Allendale Road
King of Prussia, PA 19406-1415

Dear Ms. Gabriel:

This letter is an addendum to our recent license amendment request for change of location.

- 1) Please note our plan will be to retain the waste at 80-H Commerce Way until it is fully decayed (i.e., 10 half-lives and survey results show background readings), and then dispose of it as non-radioactive waste.
- 2) Regarding the move of our waste dumpsters to our proposed new facility:
No waste has been added to these dumpsters for over 80 days. Prior to transport to our new facility we will survey the dumpsters and confirm that readings are at background, and we will remove any radioactive materials labels.

For questions regarding this amendment please email or call Justin Goggin, D.V.M. at metvetrad@aol.com or 973-980-1407. You may also contact John C. Ramsey at 908-788-9440. Thank you for your assistance.

Sincerely,

Michael Palescandolo, DVM, President Metropolitan Animal Emergency Group, PA

Justin M. Goggin, DVM, Diplomate American College of Veterinary Radiology (supervisor of licensed material use)
