SUBJECT: CORRECTION OF OPERATING LICENSES AND TECHNICAL
SPECIFICATIONS FOR SAN ONOFRE NUCLEAR GENERATING STATION
(SONGS), UNITS 2 AND 3

Dear Mr. Ray:

The purpose of this letter is to provide you with the results of the U.S. Nuclear Regulatory Commission (NRC) staff's review of the operating licenses and technical specifications for SONGS, Units 2 and 3. The NRC is conducting a comparison of its license authority files to licensees' records to ensure errors in operating licenses and technical specifications are identified and corrected for all units. I have completed the comparison of the NRC's license authority file and your records to determine whether corrections were necessary. The enclosure provides the information necessary to update your records for SONGS, Units 2 and 3 so that the operating licenses and technical specifications accurately capture the NRC-approved amendments or corrections to these documents. I have discussed the corrections that are necessary with Mr. Jack Rainsberry of your staff.

Included in the enclosure are copies of the (1) cover letters transmitting the license amendments, (2) insert/remove instruction pages for the associated amendments, and (3) correct technical specification pages. Please follow the instructions of the insert/remove pages when incorporating these corrections. Please have a member of your staff inform me when the corrections have been incorporated into your records or if there are questions or comments on the requested action. I can be contacted at 301-415-8450.

Sincerely,

/RA/
