Subject: (YT#020020042) NRR Repsonse to Reposting Document Collections to NRC's Public Web Site

Joan and Fran,

Per our discussion and in response to the February 22, 2002 memo from the Chief Information Officer, titled "REPOSTING DOCUMENT COLLECTION TO THE NRC'S PUBLIC WEB SITE" NRR has attached its schedule for the authorization and release of entire document collection sets rather than take an incremental approach to the release process. This allows NRR to schedule, measure and manage the sensitivity review and external web redesign process in orderly manner and hopefully assists OCIO in document collection redesign resource allocation planning. If there are any question please feel free to contact me.
