Charlie,

The State will not be participating in the NAG petition hearing on the Radiac license. I just completed a call with Clayton Bradt, NYDOL. After discussing the proposed hearing with his manager, NYDOL has decided not to participate in the Radiac hearing. NYDOL indicated that they have already closed this matter, and does not want to give the impression that the NRC is mediating between the State and its licensee or NAG.

Cardelia,

Radiac has proposed dates for the pre-PRB meeting - see attached.
Do you or should I contact the State and Radiac to see if they want to attend?
