Jack,
I'm inserting the following new paragraph between the two existing ones:

We have considered your assertion of the "need for urgent action" a request for immediate action under our procedures for 2.206 petitions in Management Directive 8.11. The Petition Review Board, which met on November 25 and 26, 2003, has denied your request for immediate action because of the limited activity of radioactive material that Radiac is authorized to possess.

Let me know if this is OK.
