The purpose of this memorandum is to provide you with the information necessary to update the license authority files for the subject plant and units to accurately capture the license and technical specification changes made to these documents. I have completed the review of the license authority files for SONGS, Units 2 and 3, comparing the two NRC copies and the licensee's records to determine corrections that are necessary. The attachments provide those changes that are needed to the copies of the license authority files maintained by your staff for its use, as well as for copies used by the Office of Nuclear Reactor Regulation (NRR). Changes needed to the licensee's records will be addressed under separate correspondence to the licensee.
