CONDITIONS

11. This amendment shall become effective when the conditions specified in the Decontamination and Restoration Criteria of the license amendment application dated November 11, 1966 have been attained at the Quehanna pilot plant and the plant is secured as stated therein, and upon the decision of the licensee to cease activities authorized by license amendments preceding this amendment.
12. The licensee shall comply with the provisions of Title 10, Part 20, Code of Federal Regulations, Chapter 1, "Standards for Protection Against Radiation," except that in lieu of the control device specified in paragraph 20.203(c)(2), access to high radiation areas shall be controlled by the means specified in the licensee's letter dated December 22, 1966.
13. Except as specifically provided otherwise by this license, the licensee shall possess and store the byproduct material described in Items 6, 7, and 8 of this license in accordance with the statements, representations, and procedures contained in his application dated November 11, 1966 and supplemented by the following:
 - A. Letter ACC-527, dated December 22, 1966.
 - B. Letter ACC-535, dated January 31, 1967.
