Clearfield, Pennsylvania
May 12, 1967

Mr. George C. Geisler
The Pennsylvania State University
Nuclear Reactor Facility
University Park, Pennsylvania 16801

Dear Mr. Geisler:

The Martin-Marietta Corporation is completing the decontamination of the Quehanna facility in preparation for the closeout by May 31, 1967. We would like to suggest May 22, 23, or 24 as a time for any inspections that may be necessary by your organization to verify facility conditions prior to closeout. A response as to the exact date we can expect you will be appreciated.

If we can be of any assistance in this matter, do not hesitate to call us.

Very truly yours,

MARTIN-MARIETTA CORP.

M. J. Gaitanis
