Subject: Revised Pages for By-product Material License 19-1938-29

Gentlemen:

Enclosed are six copies of revised pages for the subject license renewal. These revisions have been made as a result of our discussions on May 20, 1964, and basically correct typographical errors and clarify the text.

We plan to provide updated and final copies of the license renewal after all revisions are completed. We hope to have additional revisions, including the additional safety evaluations, to you during the week of June 15, 1964.

Very truly yours,

C. W. Keller
