

April 30, 2004

The Honorable Edward G. Rendell
Governor of Pennsylvania
225 Main Capitol Building
Harrisburg, PA 17120

SUBJECT: THREE MILE ISLAND, UNIT 1 - ANNUAL ASSESSMENT OF SAFETY
PERFORMANCE

Governor Rendell:

I would like to personally invite you and other members of your organization to attend a meeting between the Nuclear Regulatory Commission (NRC) and AmerGen Energy Company in which the NRC staff will discuss with AmerGen our annual assessment of the safety performance of the Three Mile Island, Unit 1 (TMI-1) facility.

The NRC recently completed its annual assessment of the safety performance of the TMI-1 Nuclear Power Plant in accordance with the NRC Reactor Oversight Process. Our assessment used the most recent performance indicator data and inspection findings from January 1, 2003 through December 31, 2003. We described our assessment results in a letter to AmerGen on March 3, 2004. A copy of that letter is enclosed. The NRC's meeting notice, meeting agenda, and assessment letter can be found in the meeting package, which has been entered into ADAMS, the NRC records system (Accession Number ML040640848). ADAMS is accessible from the NRC Web Site at: <http://www.nrc.gov/reading-rm/adams.html>.

The meeting will be held at 7:00 p.m. on Thursday, May 20, 2004, at the Middletown Borough Hall, Middletown, Pennsylvania. At the meeting we will briefly discuss our Reactor Oversight Process and then discuss with AmerGen our assessment of their safety performance at TMI-1 and their response to our assessment. The meeting is open to the public for observation. Following the presentation, the NRC staff will be available to answer questions from you and members of the public regarding the safety performance of the Three Mile Island, Unit 1 facility and the role of the NRC in ensuring safe plant operations.

You can also become familiar with our Reactor Oversight Process, the information we used in our annual assessment, and the specific safety performance at Three Mile Island through the NRC Web Site at: <http://www.nrc.gov/NRR/OVERSIGHT/ASSESS.index.html>.

Your schedule permitting, I look forward to meeting you on May 20, 2004. In the interim, please do not hesitate to contact me at 610-337-5234 if I can be of further assistance to you.

Sincerely,

/RA by Richard S. Barkley Acting For/
Peter W. Eselgroth, Chief

PERFORMANCE

Senator Santorum:

I would like to personally invite you and other members of your organization to attend a meeting between the Nuclear Regulatory Commission (NRC) and AmerGen Energy Company in which the NRC staff will discuss with AmerGen our annual assessment of the safety performance of the Three Mile Island, Unit 1 (TMI-1) facility.

The NRC recently completed its annual assessment of the safety performance of the TMI-1 Nuclear Power Plant in accordance with the NRC Reactor Oversight Process. Our assessment used the most recent performance indicator data and inspection findings from January 1, 2003 through December 31, 2003. We described our assessment results in a letter to AmerGen on March 3, 2004. A copy of that letter is enclosed. The NRC's meeting notice, meeting agenda, and assessment letter can be found in the meeting package, which has been entered into ADAMS, the NRC records system (Accession Number ML040640848). ADAMS is accessible from the NRC Web Site at: <http://www.nrc.gov/reading-rm/adams.html>.

The meeting will be held at 7:00 p.m. on Thursday, May 20, 2004, at the Middletown Borough Hall, Middletown, Pennsylvania. At the meeting we will briefly discuss our Reactor Oversight Process and then discuss with AmerGen our assessment of their safety performance at TMI-1 and their response to our assessment. The meeting is open to the public for observation. Following the presentation, the NRC staff will be available to answer questions from you and members of the public regarding the safety performance of the Three Mile Island, Unit 1 facility and the role of the NRC in ensuring safe plant operations.

You can also become familiar with our Reactor Oversight Process, the information we used in our annual assessment, and the specific safety performance at Three Mile Island through the NRC Web Site at: <http://www.nrc.gov/NRR/OVERSIGHT/ASSESS.index.html>.

Your schedule permitting, I look forward to meeting you on May 20, 2004. In the interim, please do not hesitate to contact me at 610-337-5234 if I can be of further assistance to you.

Sincerely,

/RA by Richard S. Barkley Acting For/

I would like to personally invite you and other members of your organization to attend a meeting between the Nuclear Regulatory Commission (NRC) and AmerGen Energy Company in which the NRC staff will discuss with AmerGen our annual assessment of the safety performance of the Three Mile Island, Unit 1 (TMI-1) facility.

The NRC recently completed its annual assessment of the safety performance of the TMI-1 Nuclear Power Plant in accordance with the NRC Reactor Oversight Process. Our assessment used the most recent performance indicator data and inspection findings from January 1, 2003 through December 31, 2003. We described our assessment results in a letter to AmerGen on March 3, 2004. A copy of that letter is enclosed. The NRC's meeting notice, meeting agenda, and assessment letter can be found in the meeting package, which has been entered into ADAMS, the NRC records system (Accession Number ML040640848). ADAMS is accessible from the NRC Web Site at: <http://www.nrc.gov/reading-rm/adams.html>.

The meeting will be held at 7:00 p.m. on Thursday, May 20, 2004, at the Middletown Borough Hall, Middletown, Pennsylvania. At the meeting we will briefly discuss our Reactor Oversight Process and then discuss with AmerGen our assessment of their safety performance at TMI-1 and their response to our assessment. The meeting is open to the public for observation. Following the presentation, the NRC staff will be available to answer questions from you and members of the public regarding the safety performance of the Three Mile Island, Unit 1 facility and the role of the NRC in ensuring safe plant operations.

You can also become familiar with our Reactor Oversight Process, the information we used in our annual assessment, and the specific safety performance at Three Mile Island through the NRC Web Site at: <http://www.nrc.gov/NRR/OVERSIGHT/ASSESS.index.html>.

Your schedule permitting, I look forward to meeting you on May 20, 2004. In the interim, please do not hesitate to contact me at 610-337-5234 if I can be of further assistance to you.

Sincerely,

/RA by Richard S. Barkley Acting For/
